

The Proposal

Open on a couple's feet as they're hiking up a mountain, filmed from the POV of the woman's GoPro.

SFX: The sound of gravel crunching beneath their hiking boots and birds chirping. There is a soft, optimistic song playing in the background.

Cut to them at the top of the mountain, still from the POV of the GoPro. The woman pans over the view until she gets to her boyfriend. He's down on one knee with a ring in his hand.

She drops the camera and it falls on the ground. It lands so you can still see the couple.

SFX: We hear the woman gasp. The music picks up to sound more exciting.

Artcard: GoPro logo

Cut to the woman picking the camera up. You can see an engagement ring on her finger.

Endcard: Moments with momentum.
